

fat face

HOT OFF THE PRESS ...

There has been a lot of speculation about us in the press over the last few months, with all sorts of interesting stories about Fat Face being sold and about our founders.

Time to end all the rumours – Fat Face would like to confirm that we have now secured new investment from Bridgepoint, a European private equity group, who take over from Advent International.

Our founders, Tim and Jules, will continue to hold a minor stake in the brand alongside Bridgepoint.

The change allows Fat Face to continue to create more innovative product for our customers, and start to give everyone a taste of our brand through international expansion.

All exciting stuff, but rest assured, we will continue to build on our heritage to produce great kit for all of you who know 'life is out there'!
